

# GV-MFD3401 3MP H.264 WDR Pro Mini Fixed Dome

- 3 Megapixel Progressive Scan WDR Pro CMOS
- Dual streams from H.264 and MJPEG
- Up to 20 fps at 2048 x 1536
- Day and night function (electronic)
- USB slot for GV-WiFi Adapter or USB hard drive
- Built-in micro SD card slot (SD/SDHC) for local storage
- Recording assigned by GV-Edge Recording Manager (Windows, Mac version)
- Active Tampering alarm
- Wide Dynamic Range Pro (WDR Pro)
- Two-way audio
- 2D noise reduction
- Defog
- Motion detection
- Privacy mask
- IP address filtering
- iPhone, iPad, Android
- DC 5V / PoE (IEEE 802.3af)
- Megapixel lens
- Supports iPhone, iPad, Android & 3GPP
- 31 languages on Web interface
- ONVIF (Profile S) conformant
- More Storage Option NAS

#### Introduction

The GV-MFD3401 Series offers an indoor, fixed, mini-sized network camera with different lens options. The camera can process scenes with contrasting intensity of lights and produce clear image using the built-in WDR Pro. The camera is equipped with a USB port which supports wireless connection through GV-WiFi Adapter (optional) or external storage using a USB hard drive.

#### Note:

- 1. Mind the following limitations and requirements for the USB port:
  - The USB hard drive must be of 2.5" or 3.5", version 2.0 or above
  - The USB hard drive's storage capacity must not exceed 2TB
  - USB flash drives and USB hubs are not supported
  - External power supply is required for the USB hard drive

GV-MFD3401 Series

May 16, 2019

- To connect the GV-WiFi Adapter, make sure it is connected before the camera is powered on.
- 2. Mind the following when using an inserted memory card for recording:
  - Recorded data on the memory card can be damaged or lost if the data are accessed while the camera is under physical shock, power interruption, memory card detachment or when the memory card reaches the end of its lifespan. No guarantee is provided for such causes.
  - The stored data can be lost if the memory card is not accessed for a long period of time. Back up your data periodically if you seldom access the memory card.
  - Memory cards are expendable and their durability varies according to the conditions of the installed site and how they are used. Back up your data regularly and replace the memory card annually.
  - To avoid power outage, it is highly suggested to apply a battery backup (UPS).
  - For better performance, it is highly suggested to use Micro SD card of MLC NAND flash, Class 10.
  - Replace the memory card when its read/write speed is lower than 6 MB/s or when the memory card is frequently undetected by the camera.
- 3. Specifications are subject to change without notice.

### **Packing List**

| 1. | Mini Fixed Dome        | 6.  | Short-Body RJ-45 Plug |
|----|------------------------|-----|-----------------------|
| 2. | Torx Wrench            | 7.  | USB / Audio Y-cable   |
| 3. | Self Tapping Screw x 2 | 8.  | Power Adapter         |
| 4. | Screw Anchor x 2       | 9.  | Download Guide        |
| 5. | Cable stopper x 1      | 10. | Warranty Card         |

Note: The power adapter can be excluded upon request.
